

A BRAND BY RDMR UAE

RDMR Fuel Energy Private Limited

Pioneer in Industrial Fuel Distribution Solutions

Revolutionising industrial fuel stations across India with safe, transparent, and technology-enabled fuel delivery solutions. Operating in compliance with Ministry of Petroleum & Natural Gas regulations and PESO norms, RDMR Fuel Energy Private Limited is committed to building a modern fuel accessibility ecosystem for industries, businesses, infrastructure projects, and remote operations.

About RDMR Group

RDMR Group was founded in the UAE in 2016 and has grown into a formidable multi-sector business group with operations spanning India, the UAE, and Europe. Over the course of nearly a decade, the Group has demonstrated consistent growth, strategic diversification, and a commitment to building impactful businesses across industries.

Established 2016

Founded in the UAE, RDMR Group has grown into a multi-sector conglomerate with a strong international presence across three continents.

Diverse Portfolio

Home to multiple successful ventures across consulting, investments, media, technology, and industrial sectors — building lasting business ecosystems.

RDMR Fuel Energy Private Limited

The Group's flagship industrial venture in India, focused on transforming fuel accessibility through compliant, technology-driven mini fuel pump and mobile dispensing solutions.

Our Vision

To revolutionise fuel delivery by making diesel accessible anytime, anywhere — safely, efficiently, and transparently.

Our projects are structured to support industrial growth, infrastructure development, agriculture, and remote operations while ensuring full compliance with Petroleum Rules 2019 and PESO-certified fuel dispensing norms. We envision a future where no industrial or agricultural operation is hampered by inaccessible or inefficient fuel supply chains.

Mini Fuel Station

A sustainable distribution model serving:

- Hospitals & Healthcare Facilities
- Schools & Colleges
- Industries & Manufacturing Units
- Construction Sites
- Logistics Operations
- Remote & Rural Infrastructure

Environmental Responsibility

- Reduction in fuel wastage and pilferage
- Safe fuel storage and handling practices
- Quality fuel distribution with accurate dispensing
- Employment generation in rural and semi-urban regions

National Expansion

Expanding operations across India with future diversification into renewable and sustainable energy solutions.

Our Mission

To modernise the fuel distribution ecosystem by enabling safe and transparent fuel accessibility for businesses and industrial operations across India. Our mission is anchored in the belief that reliable, compliant, and technology-enabled fuel infrastructure is a prerequisite for India's industrial and infrastructural advancement.

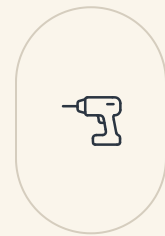

Our Services

Fuel Dispenser
Distribution

Direct Delivery

Deliver high-quality diesel directly to customer locations, eliminating logistics inefficiencies and reducing downtime for operations.

Fuel Equipment
Supply

Automated Dispensing

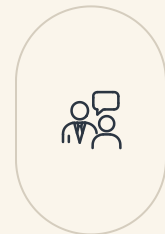

Ensure accurate automated dispensing systems with digital metering, eliminating manual errors and reducing pilferage across all operations.

Fuel Station
Installation &
Maintenance

Digital Transparency

Provide digital convenience and transparency through dedicated platforms, GST invoicing, and real-time monitoring for all clients.

Technical Consultation

Economic Impact

Build scalable fuel accessibility infrastructure that generates employment and supports agriculture, logistics, manufacturing, and infrastructure sectors.

Business Partnerships

Mini Fuel Station For Your Business

The Mini Pump Solution is a PESO-compliant, mobile fuel dispensing infrastructure designed to deliver efficient and secure diesel accessibility directly at operational sites. This innovative solution eliminates the need for personnel to travel off-site for fuel procurement, significantly reducing operational downtime and improving overall productivity. The system is engineered for reliability, safety, and ease of use across diverse industrial environments.

Key Features

- 2,000-litre automated storage capacity
- Digital dispensing unit
- Electronic locking system (E-Lock)
- Real-time dispensing accuracy
- Safe and compliant fuel handling
- Reduced fuel wastage and pilferage
- Technology-enabled monitoring system

Ideal For

- Construction Sites
- Manufacturing Units
- Logistics & Transport Hubs
- Farms & Agricultural Operations
- DG Set Operations
- Industrial Clusters

Operational Support & Setup

RDMR Fuel Energy Private Limited is committed to ensuring every partner and client achieves a smooth, efficient, and fully operational deployment. Our comprehensive support infrastructure is designed to reduce the time from procurement to productivity, whilst ensuring all systems are configured, tested, and compliant before going live.

Technical & CRM Support

Dedicated technical support team alongside CRM software and a mobile application for seamless management of fuel dispensing operations and consumption monitoring.

Installation & Onboarding

Full installation support with structured training and onboarding programmes to ensure operational teams are fully equipped to manage and maintain the system.

Marketing Assistance

Marketing and branding assistance provided to business partners, along with quick refilling support to ensure continuous and uninterrupted operations.

✔ Operational setup completed within **45–60 days** — from order to full deployment, with end-to-end installation and commissioning support included.

Durable Design

High Efficiency

Safe Operations

Easy Maintenance

Reliable Performance

Complete Control

TECHNOLOGY-DRIVEN FUEL MANAGEMENT

RDMR Fuel Energy Private Limited places cutting-edge technology at the heart of its fuel management ecosystem. Our integrated digital platform empowers businesses with end-to-end visibility and control over their fuel consumption, ensuring accountability, efficiency, and operational continuity at every stage of the fuel supply chain.

Doorstep Diesel Delivery

Fuel delivered directly to your operational site, eliminating the need for procurement trips and reducing vehicle downtime significantly.

Bulk Storage Solutions

On-site bulk storage infrastructure with up to 10,000-litre capacity and electronic locking systems, ensuring continuous supply readiness.

Digital Metered Dispensing

Precision-engineered digital dispensing units that guarantee accuracy, reduce waste, and provide tamper-proof fuel measurement.

Real-Time Tracking

Monitor dispensing activity, consumption patterns, and delivery status in real time through the dedicated mobile application.

Monthly Consumption Reports

Automated monthly consumption reports enabling businesses to optimise fuel budgets, improve forecasting, and reduce operational costs.

Customised Fuelling Solutions

Tailored fuelling plans and dispensing configurations designed to match the unique operational requirements of each client.

Ideal for Industries Across India

RDMR Fuel Energy Private Limited's mini pump and mobile fuel dispensing solutions are engineered to serve a diverse range of industries and operational environments. Whether managing a large construction project, running a fleet of logistics vehicles, or maintaining backup power for a hospital, our solutions are designed to integrate seamlessly with your existing operations. We currently serve all metro cities and are expanding our footprint across India on a PAN-India basis.

Logistics & Transport

Fleet operators and logistics companies benefit from on-site fuelling, reducing turnaround time and improving fleet efficiency.

Manufacturing Units

Uninterrupted fuel supply for heavy machinery, generators, and production equipment across manufacturing facilities.

Construction Sites

Reliable on-site diesel supply for excavators, cranes, compactors, and all heavy construction equipment at project sites.

i **Operating across all metro cities PAN India** — with continued expansion into Tier-2 and Tier-3 cities and rural industrial clusters.

Hotels & Hospitals

Ensuring continuous DG set operations and backup power reliability for critical healthcare and hospitality infrastructure.

Corporate Parks & Societies

Managed diesel supply for DG sets powering corporate campuses, housing societies, and commercial complexes across urban centres.

Schools & Colleges

Educational institutions rely on our safe and compliant fuel dispensing to maintain uninterrupted power and operational continuity.

LOGISTICS & TRANSPORT

MANUFACTURING UNITS

CONSTRUCTION SITES

HOTELS & HOSPITALS

CORPORATE PARKS & SOCIETIES

SCHOOLS & COLLEGES

Why Choose RDMR Fuel Energy Private Limited

In a market where fuel accessibility, compliance, and transparency are increasingly critical to operational success, RDMR Fuel Energy Private Limited offers a uniquely comprehensive and technology-enabled proposition. Our solutions are built on a foundation of regulatory compliance, digital innovation, and a deep understanding of the fuel distribution challenges faced by India's industrial and commercial sectors.

Government-Compliant

Full compliance with Ministry of Petroleum & Natural Gas regulations and PESO-certified standards.

Subsidised Rates

Fuel supplied at competitive and subsidised rates, enabling meaningful cost savings for industrial and commercial operations.

24x7 Accessibility

Round-the-clock fuel accessibility solutions ensuring no operational disruption due to fuel unavailability.

Fire & Safety Compliant

Systems designed and installed in full compliance with fire safety and petroleum handling norms, protecting personnel and assets.

No Manual Handling

Fully automated dispensing eliminates manual fuel handling risks, reducing human error and safety hazards.

Digital GST Invoicing

Automated, compliant digital GST invoicing for all transactions, simplifying accounting and audit requirements.

Why Become a Partner

The RDMR Fuel Energy Private Limited partnership model offers a compelling business opportunity in one of India's fastest-growing industrial segments. As the country's infrastructure, logistics, and manufacturing sectors continue to expand at an unprecedented pace, the demand for reliable, compliant, and technology-enabled fuel accessibility solutions is growing significantly. Partnering with RDMR Fuel Energy Private Limited means aligning with a market-ready, regulatory-compliant ecosystem backed by the established RDMR Group.

Technology-Enabled Operations

Leverage a fully integrated digital platform — CRM, mobile application, real-time tracking, and automated invoicing — to run a modern, efficient fuel distribution business from day one.

Growing Industrial Demand

India's industrial, logistics, and construction sectors are expanding rapidly, creating a consistently growing and largely underserved demand for on-site and mobile fuel dispensing solutions.

High Savings on Fuel & Distribution

Partners benefit from significant cost efficiencies on fuel procurement and distribution, driving strong unit economics and improving overall profitability for partner operations.

Expanding Fuel Accessibility Market

The fuel accessibility market in India's Tier-2, Tier-3, and rural industrial segments remains significantly underpenetrated, presenting substantial first-mover advantages for early partners.

Strong Infrastructure Growth Potential

India's ₹10+ lakh crore infrastructure investment pipeline under the National Infrastructure Pipeline ensures a sustained and long-term demand for industrial fuel solutions over the coming decade.

Contact Information

To explore partnership opportunities, procurement enquiries, or to learn more about our mini pump and mobile fuel dispensing solutions, please reach out to our teams at either of our offices. Our team is available Monday through Saturday during business hours and is committed to responding to all corporate and government enquiries promptly.

Corporate Office

42nd Floor, Rolex Tower
Sheikh Zayed Road
Dubai, UAE

Home to the RDMR Groups' international headquarters, our Dubai office oversees global strategy, partnerships, and Group-level operations.

India Correspondence Office

**Office A 05, Ground Floor, Goodwill Square, Dhanori,
Pune, Maharashtra 411015**

Office Landline: 020 67908714

Sales Support: +91 77986 06064

Client Servicing: +91 90047 64076

Business Hours: Monday to Saturday, 10:00 AM – 7:00 PM IST

Partner Enquiries

For distribution partnerships, business opportunities, and operational queries, our Pune correspondence office serves as the primary point of contact for all India-based stakeholders.

 All corporate and government stakeholder enquiries are welcomed. Please contact our Pune office during business hours for prompt assistance with procurement, compliance documentation, or partnership discussions.
